REQUEST FOR ATOMIZED URANIUM -- "SR-SNY-290"

REFER TO
SYMBOL: ZD:BA

Reference is made to your memorandum dated April 20, 1950 in which you requested one-half pound of about 200 mesh atomized uranium powder made by Sylvania Electric Products, Inc., Bayside, Long Island, N. Y.

Sylvania's process for producing uranium powder by atomization is still in the early experimental stages and at this time it is not possible to supply you with a half-pound of this material which would be representative of the process results. However, we will honor your request when the process is more fully developed. It is anticipated that this will take about two months.
